SENATE RESOLUTION 307—SUPPORTING EFFORTS TO INCREASE CHILDHOOD CANCER AWARENESS, TREATMENT, AND RESEARCH

Mr. ISAKSON (for himself and Mr. SALAZAR) submitted the following reso-

lution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 307

Whereas an estimated 12,400 children are diagnosed with cancer each year;

Whereas cancer is the leading cause of death by disease in children under age 15;

Whereas an estimated 2,300 children die from cancer each year;

Whereas the incidence of cancer among children in the United States is rising by about 1 percent each year;

Whereas 1 in every 330 people in the United States develops cancer before age 20;

Whereas approximately 8 percent of deaths of individuals between 1 and 19 years old are caused by cancer;

Whereas, while some progress has been made, a number of opportunities for childhood cancer research still remain unfunded or underfunded;

Whereas limited resources for childhood cancer research can hinder the recruitment of investigators and physicians to field of pediatric oncology;

Whereas the results of peer-reviewed clinical trials have helped to raise the standard of care for pediatrics and have improved cancer survival rates among children;

Whereas the number of survivors of childhood cancers continues to increase, with about 1 in 640 adults between ages 20 to 39 having a history of cancer;

Whereas up to ⅓ of childhood cancer survivors are likely to experience at least 1 late effect from treatment, which may be life-threatening;

Whereas some late effects of cancer treatment are identified early in follow-up and are easily resolved, while others may become chronic problems in adulthood and have serious consequences; and

Whereas 89 percent of children with cancer experience substantial suffering in the last month of life: Now, therefore, be it

Resolved, That it is the sense of Senate that Congress should support—

(1) public and private sector efforts to promote awareness about—

(A) the incidence of cancer among children;

(B) the signs and symptoms of cancer in children;

(C) options for the treatment of, and long-term follow-up for, childhood cancers;

(2) increased public and private investment in childhood cancer research to improve prevention, diagnosis, treatment, rehabilitation, post-treatment monitoring, and long-term survival;

(3) policies that provide incentives to encourage medical trainees and investigators to enter the field of pediatric oncology;

(4) policies that provide incentives to encourage the development of drugs and biologics designed to treat pediatric cancers;

(5) policies that encourage participation in clinical trials;

(6) medical education curricula designed to improve pain management for cancer patients; and

(7) policies that enhance education, services, and other resources related to late effects from treatment.
